31. (Previously Canceled)

32. (Previously Canceled)

33. (Previously Added) A modular vault comprising:

a seamless housing body unitarily formed as a single piece, said seamless housing body having portions defining a front wall having a door opening therethrough, a rear wall, two side walls, a roof and a floor;

a door frame positionable in the door opening; and

a door mountable in the door frame whereby said vault is fire resistant and burglary proof.

34. (Previously Amended) A modular vault of claim 33, wherein a plurality of hooks are integrally formed into the seamless housing body for facilitating hoisting the seamless housing body.

35. (Canceled).

36. (Previously Added) A modular walk-in vault comprising:

Y1  
Conf a seamless housing body unitarily formed as a single piece, said seamless housing body having portions defining a front wall having a door opening therethrough, a rear wall, two side walls, a roof and a floor;

a door frame positionable in the door opening; and

a door mountable in the door frame whereby said vault is fire resistant and burglary proof.

37. (Previously Added) A modular walk-in vault of claim 36, wherein a plurality of hooks are integrally formed into the seamless housing body for facilitating hoisting the seamless housing body.

38. (Canceled).

39. (New) A method of installing a modular walk-in vault, comprising:

prefabricating the modular walk-in vault at a remote facility;

transporting the prefabricated modular walk-in vault to a desired location; and

lowering the modular walk-in onto a footing at the desired location with substantially no additional assembly.
